ANNUAL INDEX, *Engineering Education,* Vol. 67, 1976-77

The page numbers in this index refer to the eight issues of *Engineering Education* for 1976-77. The March issue, devoted to Engineering Research and Graduate Study, contains its own detailed index.

1-128 October
129-206 November
207-268 December
269-330 January
331-408 February
409-652 March
653-730 April
731-808 May

A

Abramson, Harold I., 287
Academic Lockstep and the New Learners, 385
Accounting for Continuing Education, 211
accreditation: 770
Adams, Richard F., 391
Adding Guidance to Case Studies, 374
administrators: 195
adult education: 744, 751, 752
Advertisers in This Issue, 206, 268, 330, 408, 730, 804
Aids for Educators, 202, 267, 329, 407, 728, 805
Alden, John D., 711
Alic, J.A., 374
Analysis of a Nationwide Study on Curricular Emphasis in Basic Mechanics, An, 249
Anderson, Robert M., 289
Anderson, William M., 763
Andragogy: A New Technology, 752
Andrews, Deborah C., 199
anti-technology: 739
art studio: 167
ASEE: About the Society, 12; activities, 140; annual conference (1977), 280, 351, 667, 742; annual conference abstracts, 32; board of directors, the case for teacher representation on, 188; institutional member directory, 99; nominations for 1977-78 offices, 262; position among eng. societies, 275; review of the year, 17; society organization, 58; society records, 89
Assessing the Quality of Graduate Programs, 253
Auslander, David M., 314

B

Baccalaureate Programs in Engineering Technology, 305
Becker, Heather, 162
behavioral objectives: 391
Berger, Roger W., 688
Berka, L.H., 311
Berrett, Paul O., 672
B.E.T.: 305; accreditation, 770; curriculum, 770, 790; employment patterns for graduates, 318, 785; goals, 769, 772; opinion survey on, 787; requirements for faculty, 795
B.E.T. Graduates: What Can And What Do They Do?, 785
Betty, Wynn P., 377
Book Reviews: *Autonomous Technology,* 739; *The Teaching of Technical Writing,* 199
Bradley, Francis X., Jr., 740
Brown, Donald V., 782
Burnet, George, 275, 658, 767
Business as Usual?, 658
Businesses, Students Who Work with the Problems of Real, 377
Byers, William S., 758

C

Career Guidance, 278, 346, 664
Case for Teacher Representation on ASEE's Board of Directors, The, 188
Case Reviews, 200, 266, 326, 404, 727, 803
Case Studies, Adding Guidance to, 374
Case Study: Exercise in Simulation, The, 372
Challenge of Continuous Education, The, 744
Cheshier, Stephen R., 703
Citation Counting and the Future of Engineering Libraries, 707
Company Contacts: A Survey of Industrial Guidance Activities, 278
Comparing Student and Faculty Opinion of Teaching in Lecture and Lab Courses, 721
Completing the Bridge: Report Writing in 'Real Life' Engineering Courses, 154
Computer Technology—Past, Present and Future, 694
computer(s): based education (C-BE), 693; curriculum, 697; DELPHI, 699; & equation solving, 314; history, 694; microprocessor course development, 703; & self-paced mathematics, 367; SIM, 315
Computers in Education: Tools for Today's Teaching, 692
continuing education: 211, 744; andragogy, 752; at AIChE, 287; cost of, 749, 780; eng. technology, 779; professional societies, 285, 289; limitations of professional societies, 289
Continuing Education for the Campus Itself, 740
Continuing Education in Engineering Technology Education, 779
Continuing Engineering Studies: What is the Role of Professional Societies?, 285
Continuous Education: Time for Wash and Wear Fundamentals, 751
Co-op Programs in the Development of International Technical Manpower, 741
Cooperative Graduate Engineering: The Value of Careful Planning, 150
Cosgrove, Stanley L., 150
Corcoran, W.H., 768
Costa Rica's Tecnologico: Training Technical Manpower for Industrial Competence, 782
Counter-Revolution in Engineering Education, 190
curricula: 770, 773; basic mechanics, 249; development, 253, 305; eng. technology, 763, 770, 790; indus. technology, 763
